ANNEX B

RULES OF ORIGIN

CHAPTER I

GENERAL PRINCIPLES

ARTICLE 1 The determination of origin of the goods or products and the corresponding certification and verification procedures will be applied as established in this Annex.

ARTICLE 2 The Rules of Origin in this Annex are based on the general principle of substantial transformation characterised by the change of Customs classification heading. To that end, the Parties will utilise the Nomenclature of the Harmonised Commodity Description and Coding System, including the headings, subheadings and the corresponding numerical codes, the notes to the sections, chapters and subheadings, as well as the general rules of interpretation.

CHAPTER II

DETERMINATION OF ORIGIN

ARTICLE 3 DEFINITIONS.

For the purposes of this Annex, the following definitions shall apply:

Inputs means raw materials, intermediate goods and parts or components utilised in production.

Goods or products means inputs or finished articles.

Production means planting, extraction, harvesting, fishing, hunting, manufacturing, processing or assembly of goods or products.

Originating goods means goods, products or inputs which meet the Rules of Origin established in this Annex.

ARTICLE 4 The following shall be considered as originating goods or products in the Parties:

a) Wholly produced products are:

- i) Products from the mineral, plant or animal kingdoms (including those from hunting and fishing), extracted, harvested or gathered, born, bred or captured in the territories of the Parties, or in their territorial waters or in their exclusive economic zones;
- ii) Products of the sea extracted beyond the territorial waters of the Parties and their exclusive economic zones by ships, wholly or partially owned by nationals of the Parties, legally chartered, leased or contracted under joint venture arrangements, by enterprises established in the territories of the Parties;
- iii) Products of factory ships, wholly or partially owned by nationals of the Parties, legally chartered, leased or contracted under joint venture arrangements by enterprises established in the territories of the Parties produced from goods or products of the sea, extracted by ships in accordance with the provisions in (i) and (ii) above;
- iv) The slag, ashes, residues, waste or scrap, gathered or obtained from manufacturing and processing operations performed in the territories of the Parties, fit only for the recovery of raw materials, as long as they do not constitute toxic or hazardous wastes in accordance with national and international law on the matter;

- b) Goods produced in the territories of the Parties which are made solely from originating goods.
- c) Goods produced in the territories of the Parties which utilise non-originating inputs will meet the Rules of Origin criteria established in this Article, as follows:
- i) Goods resulting from a substantial transformation process carried out in the territories of the Parties which process confers on them a new individuality characterised by their being classified in a Customs classification heading of Nomenclature of the Harmonised Commodity Description and Coding System, which is different from those in which all the non-originating inputs used in the process are classified; or
 - ii) Goods, other than goods resulting from an assembly process, in which the CIF value of the non-originating inputs utilised does not exceed 50% of the FOB price of the goods produced or the regional content is not less than 50% of the FOB price of the goods produced.
 - iii) Goods resulting from an assembly process in which the CIF value of non-originating inputs utilised does not exceed 50% of the FOB price of the goods produced or the regional content is not less than 50% of the FOB price of the goods produced.
- d) Goods produced in the territories of the Parties which incorporate inputs from third countries, and meet the specific origin requirement determined by the Joint Council.

This specific origin requirement shall prevail over the general criteria in this Annex.

The procedure to establish the specific origin requirements shall be determined by the Joint Council.

ARTICLE 5 The determination of the transaction value of the goods produced and the transaction value of the non-originating inputs shall be according to the Agreement on Customs Valuation of the WTO. The transaction value of the goods produced shall be on a FOB basis. The transaction value of the non-originating inputs shall be on a CIF basis.

To calculate the percentage of regional content of goods, the value of the non-originating inputs shall be subtracted from the transaction value of the goods produced, this difference being divided by the transaction value of the goods produced.

$$RC = \{(TV - MNV) / TV\} \times 100$$

where:

RC= Regional Content
 TV= Transaction value of the goods produced
 MNV= Transaction value of non-originating inputs.

ARTICLE 6 For the purposes of determining origin, where an input qualifies as originating goods in one Party and that input is utilised in production in the other Party, that input shall be considered as originating goods.

ARTICLE 7 For the purposes of this Annex, the following will not be considered as processes of substantial transformation, whether or not an origin requirement has been fulfilled:

- a) operations to ensure the preservation of goods or products during transportation or storage, such as ventilation, refrigeration, freezing, addition of preservatives or salt, removal of damaged parts and the like;
- b) operations such as dust removal, washing or cleaning, sifting, peeling, shelling, winnowing, maceration, drying, sorting, classification, grading, selection, crushing, filtering, diluting in water, painting or cutting-up;
- c) the simple formation of sets of goods;
- d) the packing, placing in containers or repackaging;
- e) the dividing up or assembly of packages;
- t) the affixing of brands, labels, or other similar distinctive signs;
- g) the simple mixture of materials, if the characteristics of the product obtained are not essentially different from the characteristics of the materials which have been mixed;
- h) the slaughter of animals;
- i) the simple addition of oil;
- j) the carrying out of two or more of the operations at (a) to (i) above.

ARTICLE 8 In order for the goods or products to benefit from the preferential treatment, the same must be directly delivered from the exporting country to the importing country.

For this purpose, the following shall be considered as direct consignment:

- a) Goods or products transported without going through third countries.
- b) Goods or products transported in transit through one or more non-participating countries, with or without trans-shipment or temporary storage, under the surveillance of customs authorities of such countries, provided that:
 - i) the transit is justified by geographical reasons or by considerations related to transport requirements;
 - ii) they are not designed for trade or use in the transit country; and
 - iii) they do not undergo during transportation or storage, any operation other than loading or unloading or operations to keep them in good condition and ensure their conservation.

Nothing in the foregoing shall preclude the trans-shipment of goods through the Parties.

CHAPTER III

THE DECLARATION AND CERTIFICATE OF ORIGIN

ARTICLE 9

In order, for goods or products to benefit from the preferential treatment provided under this Agreement, a Certificate of Origin in the format set down in the Appendix to this Annex shall be prepared, which in a single document shall provide:

a declaration by the exporter or the final producer that the origin requirements prescribed in this Annex have been fulfilled;

a certificate by the authorised body of the exporting country that the declaration by the exporter or the final producer, as the case may be, is accurate.

Where the exporter is not the final producer of the goods or products, the former shall present the declaration of origin to the authorised body.

The competent authority in the exporting country shall carry out such control as is necessary to permit the certification provided for in this Article and shall confirm all the data set out in the Certificate of Origin.

The Certificate of Origin shall have affixed the signature of an official notified by the authorised body of the exporting country pursuant to Article 11.

The date of the Certificate of Origin may not precede that of the relevant commercial invoice.

The Certificate of Origin shall be valid for a period of 180 days from the date of issue.

ARTICLE 10

Each Party shall require the exporter or final producer who completes and signs a Certificate of Origin to keep all the records and documents pertaining to the origin of the goods or products for a minimum of three years from the date of the certificate and to produce these records and documents as requested by the competent authority, in accordance with national legislation.

CHAPTER IV

THE FUNCTIONS AND OBLIGATIONS OF BODIES
AUTHORISED TO CARRY OUT CERTIFICATION

- ARTICLE 11 The functions and obligations of the bodies authorised by the Parties to carry out origin certification will be, *inter alia*,
- a) to verify the accuracy of the declaration presented to them by the final producer or the exporter by way of systems or procedures which ensure the accuracy of the data;
 - b) to provide to the other Parties the administrative cooperation required for the control of documentary proof of origin.

The bodies authorised by the Parties will, no later than thirty (30) days after entry into force of the Agreement, transmit through their respective Foreign Ministries to the Foreign Ministries of the other Parties, the approved list of the bodies authorised to issue the certificates mentioned in this Annex, along with a list of signatories, facsimiles of the authorised signatures and the stamps of the authorised bodies.

Any changes to such listings shall enter into force thirty (30) days after receipt of notification.

CHAPTER V

THE VERIFICATION OF ORIGIN

- ARTICLE 12 The competent authority of the importing country may request the competent authority of the exporting country to carry out control of the Certificate of Origin when:

- a) there are grounds for doubt regarding the authenticity of the document
- b) there are grounds for doubt with regard to the accuracy of the data contained therein;
- c) there are grounds for doubt that the provisions of this Annex have been met;
- d) the Certificate of Origin is incomplete;
- e) random checks are considered necessary.

The competent authority of the exporting country shall supply the information requested within forty-five (45) days.

ARTICLE 13

In no case shall the Customs authorities of the Parties interrupt an import procedure of the products covered by the Certificates of Origin mentioned in the preceding Articles. However, the Customs authorities of the importing Party, in addition to requesting the appropriate additional information from the competent authorities of the exporting Party, shall adopt the actions they deem necessary to safeguard the fiscal interests.

CHAPTER VI

PENALTIES

ARTICLE 14

Each Party shall maintain legislation which provides for penalties against those who furnish or cause to be furnished any document which is untrue in a material particular in support of a claim in the other Party that goods or products should be accepted as eligible for preferential treatment.

The penalties referred to in the preceding paragraph shall be similar to those applicable in case of untrue declarations in regard to payment of duty on imports.

CHAPTER VII

FUNCTIONS OF THE JOINT COUNCIL WITH REGARD TO THIS ANNEX

ARTICLE 15 The Joint Council shall review the Rules of Origin at least once every twelve (12) months or at the request of one of the Parties, and it may modify them.

The Joint Council may establish specific origin requirements.
